

Working Group 4

Air Pollution Agreements – Going for Global Governance of the Troposphere

Talks (morning)	Presenters (and institution)
1. Developing the role of global governance to air pollution issues: an introduction to the session	Johan Kuylenstierna (SEI – the Stockholm Environment Institute)
2. Developments in international policy and governance	Richard Mills (IUAPPA – the International Union of Air Pollution Prevention and Environment Protection Associations) and Katsunori Suzuki (Kanazawa University, Japan)
3. The Scientific and Monitoring Base for global governance	Terry Keating (US EPA)
4. Harmonization and convergence: the lessons of international developments in vehicle emissions control	Mike Walsh (ICCT – the International Council for Clean Transportation)
5. Climate and Pollution: the Voluntary Approach of CCAC	Annika Markovic (Environment Ambassador, Ministry for Foreign Affairs, Ministry of the Environment, Sweden)
6. Potential Contribution of LRTAP	Martin Williams (Kings College, London; CLRTAP EB Chair)
7. Conclusions: major issues and defining the next steps	Terry Keating (US EPA)

Afternoon session

Co-chairs: Terry Keating and Johan Kuylenstierna

This will develop conclusions addressing the major issues and defining next steps with the group (see background note for a discussion of the issues and questions that will form the basis for discussions in the session).
